EXPERIENCE

Dondoo Studios, Cape Town — *3D Artist*

Jun 2021 - Jul 2021

Created polished character and prop animations for short-form sequences using industry-standard DCC tools, focusing on timing, weight and appeal.

Egamea, Remote — *3D Artist*

Sept 2022 - Nov 2022

Processed and optimized LiDAR scans for asset integration and real-time use.
Created and textured game-ready props and environments for an Unreal Engine project and contributed assets to a Unity VR title.
Collaborated with a remote team to deliver art assets on sprint-driven deadlines.

Clear Angle Studios, Remote — *3D Artist*

May 2022 - Jul 2022

Prepared and cleaned 3D LiDAR scans by repairing geometry and aligning UVs, ensuring texture maps and meshes met film-production standards for seamless integration into VFX pipelines.

EDUCATION

The Animation School, Cape Town — *Digital art and animation*

Feb 2019 - Nov 2021

Lead lookdev and lighting artist for the student short film "The Little Elevator Lady" established final shading, materials and cinematic lighting to achieve polished, production-ready shots.
Collaborated remotely with a cross-disciplinary team and contributed character and asset modeling to support production needs.

Vega Emeris, Cape Town — *BCIS game design and development*

Feb 2024 - Present

Ongoing undergraduate studies focused on game design, level systems, and interactive prototyping (Unity/Unreal).
Curriculum emphasizes gameplay mechanics, 3D asset pipelines, UX for games, and collaborative project development.
Applying coursework to produce game-ready assets and prototypes that integrate with real-time engines.
